MAT PADDING ASSEMBLY INSTRUCTIONS

Mat padding is provided, as an option, for each size swing. The number of components that are supplied for each swing and how they are to be laid out are shown below. Just align the 'teeth' and press them together. Although either side of the pad could go up or down, the smooth side probably provides the best grip on hard surfaces. Align the 'teeth' of the edges pieces and press them onto the pads.

The longer direction of the On the Go - Size 2 is aligned with the long dimensions of the On the Go - Size 2 Swing (in line with the backbone).

Note: Align the On the Go Swings to be in the center of the mat at all times.

The On the Go - Size 1 Swing:

The On the Go - Size 1 has 9 tiles, 4 corner pieces and 8 edge pieces. The layout is as follows:

approximately 70" x 70" without edges
approximately 73" x 73" with edges

The On the Go - Size 2 Swing:

The On the Go - Size 2 has 12 tiles with 4 corner edges and 10 edge pieces. The layout is as follows:

approximately 70" x 93 ½" without edges
approximately 73" x 96 ½" with edges

The On the Go - Size 3 Swing:

The On the Go - Size 3 has 16 tiles with 4 corner edges and 12 edge pieces. The layout is as follows:

approximately 93 ½" x 93 ½" without edges
approximately 96 ½" x 96 ½" with edges
